WHOLESOME MEAT ACT

The USDA Wholesome Meat Act applies to the sale of market livestock and poultry which are sold during the livestock show, which act includes but is not limited to the following:

1. Animals must be in good health and carcasses free of drug, chemical or foreign substance residues.
2. Antibiotics and Sulfonamides have required withdrawal periods.
3. Drug label directions for use and withdrawal periods must be followed.

RESIDUE AVOIDANCE PROGRAM

1. The SandHills Stock Show & Rodeo reserves the right to test any animal officially entered in any division, for any foreign substance including drugs, chemicals or feed additives. As a prior condition to accepting any entry, any entry card or form signed by the exhibitor, AST or CEA grants the Show permission to test the entry.
2. Exhibitor and parent/guardian certify that the entry has not been administered or that the exhibitor and parent/guardian do not have any knowledge that this entry has received any substance not approved by the FDA and/or the USDA for food animals to be exhibited. Any substance administered to an animal with the intent to prevent or treat conditions or to make changes in body functions is

classified by FDA and/or USDA as a drug or chemical. Furthermore, the exhibitor and parent/guardian certify that this entry is free and clear of ALL drug and chemical residue withdrawal and elimination time periods at the time of weigh-in. Approved withdrawal times are published on labels, whereas, elimination times are not published on labels. An unpublished elimination time is the time it takes for a drug or chemical to be excreted from the body through the urine. If any approved drug or chemical has been administered to the animal, sufficient withdrawal time or elimination time must have passed so that the animal does not test positive for any drugs or chemicals at weigh-in or show.

3. Test samples collected from any animal must have zero tolerances for any identifiable or unidentifiable substance including drugs, chemicals, or feed additives, unless otherwise established as permissible by the USDA or FDA. Animals that have been administered an approved drug or chemical must allow sufficient time so that the drug or chemical is completely eliminated from the animal's system at the time of weigh-in.

Exhibitor agrees to have such animal submitted to any tests requested by the Show. Exhibitor also agrees that the opinion reached by the Show or its officials as to whether such animal is unethically fitted or overaged shall be final and binding without recourse against the Show or any of its officers. Further, the Show specifically reserves the right to have tissue, blood or urine laboratory analysis made on any animal entered for competition. The conclusions reached by the laboratory as to whether such animal has been administered a diuretic, tranquilizer, unapproved growth stimulant or other unapproved medication, or has not been completely eliminated from approved drugs shall be final and binding without recourse against the Show or any of its officers. An exhibitor of an animal testing positive for any drug or chemical may forfeit all rights and privileges to exhibit livestock in the future at the Show.
5. Animals testing positive to an unapproved foreign substance including drugs, chemicals or feed additives, will be disqualified and declared ineligible to receive premium money or sale proceeds.
